

BP1001-HDPE Double-Wall Corrugated Pipe Fittings Couplers

1.0 Description

Available Size

- DN200mm-1500mm

Stiffness strength

- SN8

Function

- Join the HDPE Double wall corrugated pipe with plain ends together with rubber rings

Material

- High-density polyethylene/HDPE

Standard

- EN 13476-3, ASTM F2435-15

Features

- Resistant to compression, UV light, weather, chemicals, and ground subsidence.

Application

- Underground Drainage pipelines, Storm Pipe lines,

2.0 Technical Data

No	Size	(diámetro interior) ID size /mm	longitud(Length) /mm	Remark
1	200mm	235	250	Injection molding type
2	300mm	340	285	Injection molding type
3	300mm	350	285	Injection molding type
4	400mm	455	300	Injection molding type
5	400mm	466	300	Injection molding type
6	500mm	556	400	Injection molding type
7	500mm	572	400	Injection molding type
8	500mm	583	490	Rotational molding
9	600mm	670	450	Injection molding type
10	600mm	685	450	Injection molding type
11	600mm	702	500	Rotational molding
12	800mm	906	550	Injection molding type
